

Take charge of your prostate health with this nutritionally complete formula that combines scientifically studied ingredients such as Saw Palmetto Berries Extract, the most popular herb for promoting prostate health and urinary frequency and flow. Stinging Nettle also has a history for prostate benefits. Lycopene, an antioxidant from tomatoes, has been recognized to support prostate and urinary tract health. Zinc is a mineral known for immune and prostate support. Also included is Vitamin E and Selenium, antioxidants known to protect against free radical damage and promote prostate function. Some evidence suggests that consumption of selenium and antioxidant vitamins may reduce the risk of certain forms of cancer. However, FDA has determined that this evidence is limited and not conclusive.*
