

MG MASON'S GUARANTEE

This product has been manufactured and packaged in strict conformance with industry & government standards.

Activated charcoal works by adsorption (not absorption). Adsorption is a process where substances move from a bulk phase (such as a solid, liquid or gas) onto a solid or liquid surface. Toxic substances attach to the surface of the charcoal. Because charcoal is not "digested," it stays inside the GI tract and eliminates the toxin when the person has a bowel movement.*

Directions: Adults, as a dietary supplement, take two tablets with water, as needed.

Caution: Do not use longer than one week.

If you are pregnant, nursing, taking any medications or planning any medical procedure, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.

Keep Out of the Reach of Children.

Store in a dry, controlled room environment.
