

MG MASON'S GUARANTEE

This product has been manufactured and repackaged in strict conformance with industry and government standards.

Collagen is the primary structural protein in the body's connective tissues. Collagen plays a vital role in the maintenance of the cartilage, tendons, and ligaments that keep joints functioning properly. Collagen also works with the immune system to promote overall health and mobility. Also added is Vitamin C. One of this vitamin's main functions is helping the body manufacture collagen, a key protein in the connective tissues, cartilage, and tendons.

Directions: Adults, take two capsules daily as a dietary supplement.

Keep Out of the Reach of Children.
Store in a dry, controlled room environment.
